FALL IRB DAYS

SEPTEMBER 20-22, 2016
MARVIN CENTER, ROOM 308

TUESDAY, SEPTEMBER 20
BIOMEDICAL DAY

Risks and Benefits 9:00-9:45am
Exploration of risks and benefits in research, including identification, minimization of risk, and potential to unduly influence subjects.
BEGINNER TO INTERMEDIATE

Biobanking 1:00-2:30pm
Common issues surrounding the use of biobanking and what researchers can expect with changes to regulatory requirements.
INTERMEDIATE TO ADVANCED

WEDNESDAY, SEPTEMBER 21
SOCIAL/BEHAVIORAL DAY

Risks and Benefits 9:00-9:45am
Exploration of risks and benefits in research, including identification, minimization of risk, and potential to unduly influence subjects.
BEGINNER TO INTERMEDIATE

Risks in Qualitative Research 10:00-10:45am
In-depth discussion about risks unique to qualitative research.
BEGINNER TO INTERMEDIATE

Research in Schools 1:00-1:45pm
Dialogue with education researchers focusing on the challenges of conducting research in schools. IRB staff will be on hand to provide regulatory guidance on school-based research. Guest panelists include Alexander Dect, PhD, CCAR, and Shammick, PhD, GSHD.
INTERMEDIATE

THURSDAY, SEPTEMBER 22
COMBINED DAY

Deception in Research 2:00-2:45pm
When a deception in research is necessary and how can researchers provide truly informed consent for these studies?
INTERMEDIATE

IRB Process 9:00-10:30am
An overview of the IRB for those who may be new to the process or want a refresher.
BEGINNER

QA/QI and Program Evaluations 1:00-1:45pm
When does a quality assurance/quality improvement project or program evaluation meet the definition of human subjects research?
BEGINNER TO INTERMEDIATE

Standard of Practice vs. Research 2:00-2:45pm
How to conduct research study when a standard of practice is involved. Focus will be on outlining risks and benefits, as well as consent information.
BEGINNER TO INTERMEDIATE

Space is limited, so please RSVP to ohrirb@gwu.edu with the sessions you will attend.
